

Roundtable 2014 List of Products

Advanced Biotech

Natural 2,4 Decadienal
Natural Delta undecalactone
Natural Fermentone Concentrate
Natural Sufurol 25% TEC (Quesote)
Natural Vanillin ex Ferulic Acid
Natural Walnut Furanone
Coffee Concentrate
Mango Extract (Alfonso Type)
Tobacco Extract
Vanilla Concentrate 30X

Alfrebro (Wild)

Cocoa Distillate Natural
2 octen 4 one Natural
T2 C6 Nonadienal Natural
T2 C6 Nonadienol Natural
Cis 4 Heptenal Natural
Alpha-Amyl Cinnamic Aldehyde Natural
Savory 9110

Aromiens

Natural ethyl 3-hydroxybutyrate
Natural methyl anthranilate
Natural methyl phenyl acetate
Natural Phenylacetic acid
Natural Nonanal 99%
Natural Trans-2-hexenal 99%
Natural Delta tetradecalactone
Natural Cinnamic acid
Natural Dihydrocoumarin
Gamma-Ionone

Bedoukian

BRI 512 ETHYL 2-METHYL-3-PENTENOATE (HIGH CIS)
BRI 9840 FRUITALEUR
BRI 526 ETHYL 4-OCTENOATE (CIS)
BRI 493 METHYL CIS-5-OCTENOATE
BRI 379 cis-4-HEPTEN-1-AL FCC

Berje

Hop Oil CO2
Mint Mojito Blend
Coriander Oil
Grapefruit Oil Blend
Juniper berry Oil
Boronia Blend
Rosemary Oil
Luo Han Guo
Benzaldehyde Natural
Violet Leaf Absolute
Blackcurrant Extract

Bontoux

Essential Oils

Rose Oil

Cucumber Lemonade – TreattZest Lemon, Cucumber Treattarome® 9721

Green Bell Pepper Limeade– Lime Oil Expressed 4x,

Green Bell Pepper Treattarome® 9723

French Oak Extract High Toast 2504

Methyl-1-propenyl Sulphide, Fema 4574 – Radish, Asafoetida, Pungent

2-Methyl-3-furanthiol acetate, Fema 3973 – roasted meat, sulfurous

Di-(1-propenyl) sulphide, Fema 4386 – browned onions, savoury

2-Methyl-3-tetrahydrofuranthiol Acetate, Fema 4686 – meaty, brothy odour and taste

Renessenz

Winsense™ Coolants

Renessenz has recently introduced Winsense™ WS-12 to the market and will demonstrate the use of this material in a variety of confectionary applications. Winsense™ WS-12 (FEMA: 4681 / Flavis: 16.123 / CAS : 68489-09-8) has excellent up front impact and a significantly longer lasting effect than other coolants currently commercially available. It can be used to impart a long lasting clean and fresh effect in mint flavors and is particularly effective in oral care, confectionary and chewing gum applications. Additionally, it can be used at low levels to impart freshness into berry, citrus and other fruit flavors in beverages, confectionary and many other applications.

Roundtable 2014 List of Products

In addition, Renessenz will demonstrate the versatility of its Winsense series to allow flavorists and product developers to enhance the freshness and realism of their products, allowing for greater indulgence and improving the overall consumer experience.

Robertet Inc.
